

# SPECIFICATION SHEET

TTII PLAY IT COOL™ By Calcean

Created by Natural Processes in the Ocean

Biogenic aragonite mineral

Renewable & sustainable

Ammonia Control:

Up to 71% reduction in 1 hour

Reaches 0 ppm at 9" depth in 5 hours

Surface temperature reduction 8°F lower when dry / 16°F lower when wet

Non microplastic

Mohs hardness - 3.5 to 4.45

Round in shape

Bulk density - 100 lbs per cu/ft

Gradation 20-50

Available in Natural White or EverCool Green

Published test reports:

Ammonia Comparison Testing

20,000 cycle Lisport

Passes CAM 17 Heavy Metals Testing

Passes Heavy Metals Leachate Testing DIN 18035-7

Passes Heavy Metals by Migration EN71-3

Passes PAHs ASTM F3496

Passes Toxicological Analysis of Phthalates

LC 50 rainbow trout testing achieved 100% survival rate after 96 hours
